HideAway™ Series Stereo Amplifier

### HideAway™ Series Stereo Amplifier

The SAA-248 houses two separate mono-block amplifiers that provide extremely clean state-of-the-art power. The SAA-248 produces unexpected sound depth and musical clarity. The unit accepts any volume controlled line level stereo input and uses super quiet 15 V DC power. It has a continuous power of 48 Watts per channel and a peak power of 60 Watts per channel. Advanced protection circuitry guards against system damage from overload, overheating, or short circuits.

There are a number of optional features available for the SAA-248. Options include a rotary volume control and multiple amplifiers in a standard rack mount unit.

Pragmatic offers high-quality digital amplifiers that contain numerous advantages over the competition. A Pragmatic amplifier boasts high efficiency and clock frequency. It also has very linear gain and phase characteristics. The amplifier has a flat frequency response from 10 Hz to 50 kHz. There is no ripple in the passband and very low change in distortion versus out power levels (usually between 0.01 and 0.05%). It maintains very low and uniform distortion on all frequencies and very high signal-to-noise ratio and dynamic range.

The amplifier shall measure 2" W x 3.5" H x 3" D. It shall weigh only 12 oz. It shall be powered by 15 V DC. It shall have a continuous power of 48 Watts per channel with a peak power of 60 Watts per channel. Its signal to noise ratio shall be less than 100 dB and its dynamic range shall be less than 100 dB. Its frequency response shall be 20 Hz to 20 kHz. It shall have the option of rotary volume control and multiple amplifiers in a standard rack unit.

#### Feature & Benefits:

- Compact design
- Two separate mono-block amplifiers
- 48 Watts per channel
- Weighs only 12 oz.
- Very high dynamic range
- Only 15 VDC power required
- High Efficiency
- High clock frequency
- Very linear gain and phase characteristics
- No ripple in the pass band
- Very high signal-to-noise ratio
- Very low change in distortion versus output power levels
- Flat frequency response from 10Hz to 50kHz

#### Specifications:

Dimensions: 2" W x 3.5" H x 3" D

Power: 15 V DC

Continuous Power: 48 Watts per channel

Peak Power: 60 Watts per channel

Signal-to-Noise Ratio: <100 dB

Dynamic Range: <100 dB

Weight: 12 oz.

Frequency Response: 20Hz-20kHz

#### Applications:

- Compact stereo amplifier
- Residential or Commercial audio amplification

\*US and International patents pending
