High-performance Line Array

Line Array Speakers For Any Application

The PHA-264 line-array speaker uses 4 high performance, full range neodymium drivers which offer a well-defined dispersion pattern with no hot spots. The PHA-264 is a compact array speaker designed to be on its own or be paired with plasma and LCD TV units used in industrial, commercial and residential home theater applications.

The enlarged box design of PHA-264 offers extended low frequency response rivaling that of many in-ceiling/in-wall and on-wall speakers.

The speaker is easily mounted horizontally or vertically on a wall or ceiling with the built-in M6 screws. The speaker offers a very uniform 360 degrees sound field dispersion when positioned vertically or horizontally, making it an ideal speaker for mounting in public venues or hidden away at home.

Additional options include an integrated amplifier and a PADS™ or TPA receiver. So whether you are looking for a high performance speaker in a hotel, home theater, restaurant, theme park or department store for an audience of a few or a few thousand, the exceptional sound quality from PHA-264 will be suitable for all needs within the A/V market.

Applications:

- Residential home theater applications
- Digital signage plasma and LCD TV units
- Applications in hotels, fitness clubs, restaurants, theme parks, museums, shopping malls, grocery stores, etc.

Feature & Benefits:

- 4 full-range drivers
- Efficient energy consumption
- External HideAway™ amplifier option
- PADS or TPA receiver option available
- CE compliant
- Neutral color options for easy decor blending
- Compact 2" x 2" footprint

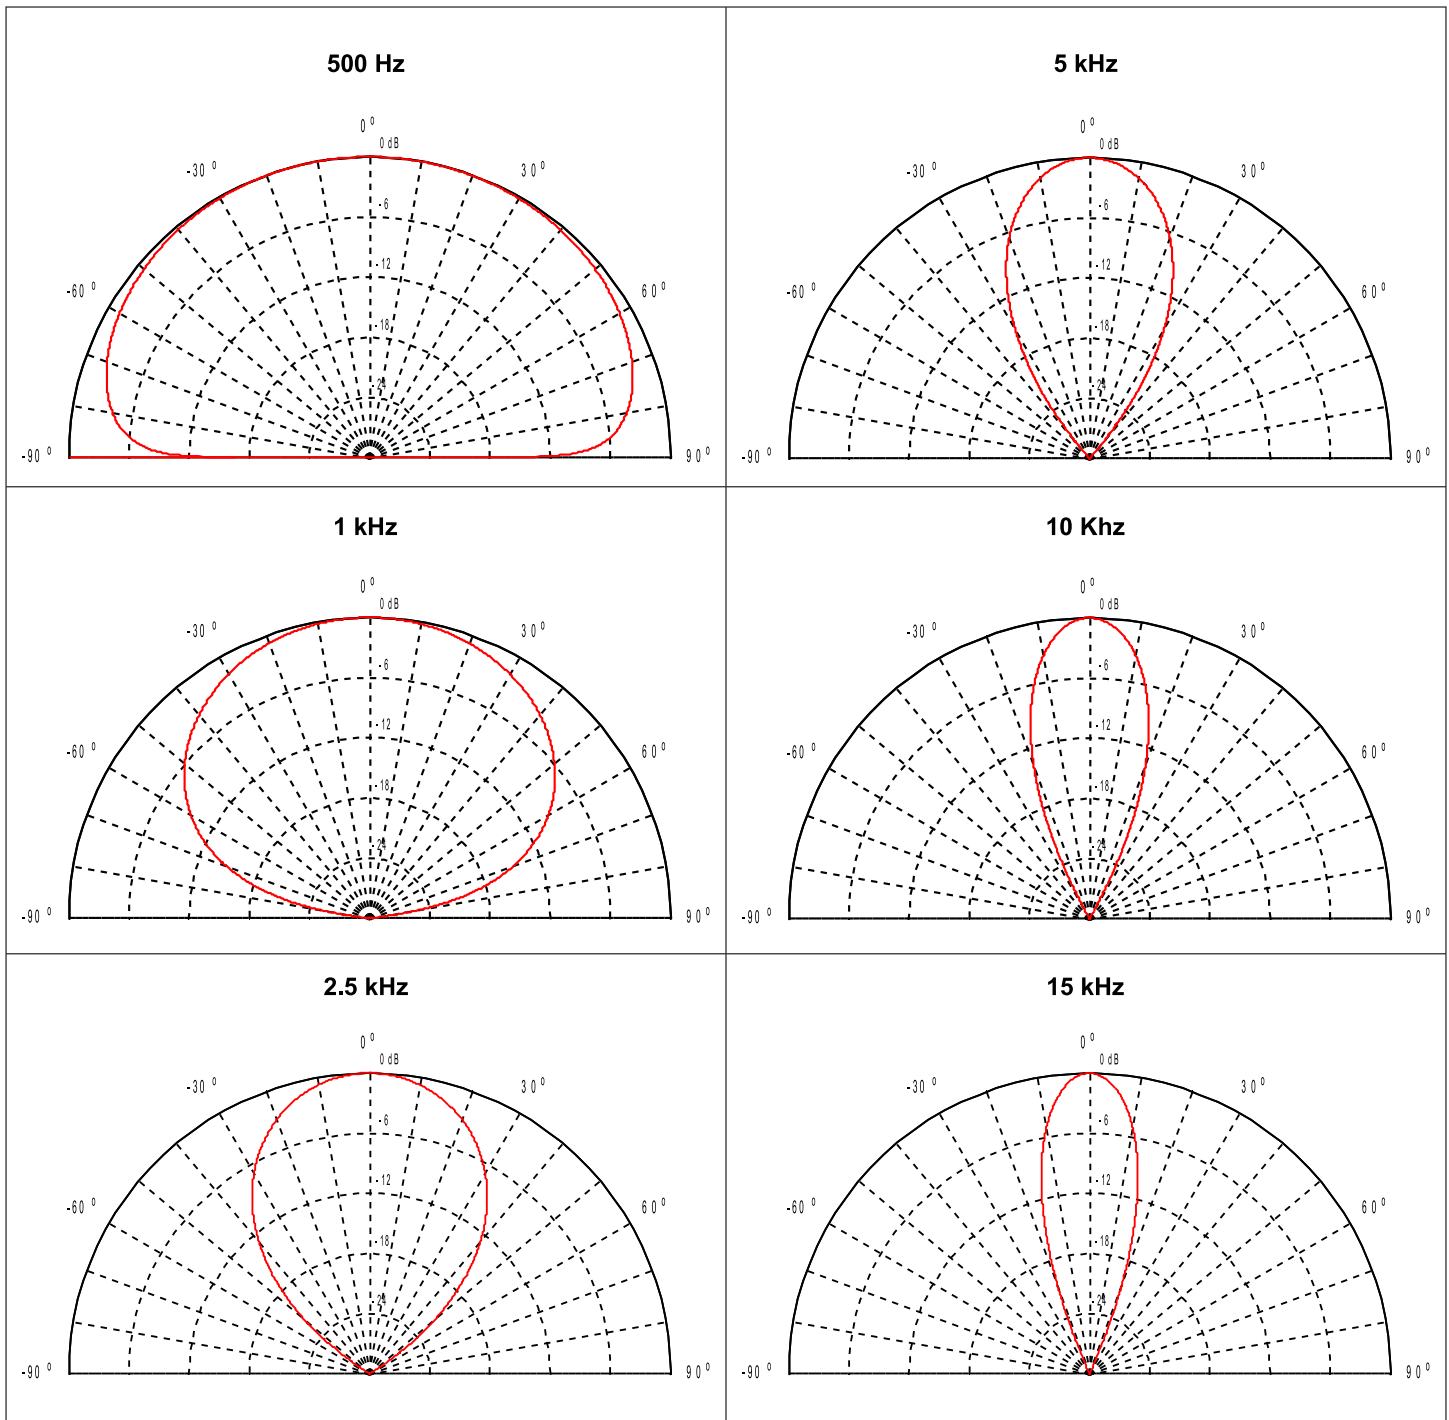

Specifications:

Power Handling: 1 - 48 watts max.
 Frequency Response: 90Hz - 20kHz
 Sensitivity: 84dB @ 1W/1M
 Impedance: 4-ohm
 Dimensions (HxWxD): 26" x 2" x 2"
 Weight: 2.25 lbs.
 Finish: Black anodized aluminum
 Grille: Perforated aluminum
