

» DAVES™ 4.4

Digital Audio Video Entertainment System

Digital Audio Video Entertainment System

The DAVES™ 4.4 system delivers high quality audio/video at an affordable price. Its simple yet elegant design provides unequal sound quality with cables that run up to 1000 feet per zone. It distributes audio/video signals to 4 listening areas using only a single category 5 cable. Furthermore, each zone is capable of independently selecting any source. By cascading an additional DAVES™ 4.4 system, it can be expanded in increments of four zones per unit. Each category 5 cable ends into a DAVES™-KP (In-Wall Amplifier Key Pad), for amplification and control. The DAVES™-KP delivers true high fidelity performance that actually rivals the sound quality of large stand-alone amplifiers. The unit has a built-in IR detector for remote control of source selection, volume up, volume down, and mute. It is available with IR only control or IR with keypad.

The Pragmatic DAVES™ 4.4 offers outstanding input and output versatility, with 4 stereo sources in and 4 zones out, along with video feeds and local IR control. The DAVES™ 4.4 delivers DVD quality video over an astounding 1000 feet on category 5 cables and RS485 control. Even at that distance, there isn't a need for local AC connections, which saves time and money by eliminating secondary wiring. Local control is by keypad or IR control. Pragmatic's efficient digital amps deliver 12-48 watts directly into the speakers to match the detail of the video. The DAVES™ 4.4 has incredible features and versatility for its price. As simple to install as other category 5 wired systems with a stunning difference in sound quality and video detail.

Feature & Benefits:

- Cable runs up to 1000 ft. per zone
- Expandable in 4 zone increments
- High quality audio/video
- High quality audio amplifier
- Affordable price
- Easy to operate
- Highly reliable
- Simple installation
- 4 zones out
- Incredible sound quality and video detail

Specifications:

Sources: 2
 Zones: 32
 Dimensions: 16.75"W x 1.75" H x 9.75" D.
 Cable: 1000' per zone
 Finish: White, (Black, Silver, etc. custom)
 Chassis: Standard rack unit

Applications:

- Multiple room audio system in residential markets
- Audio and Video supplied to rooms on category 5 cables
- In-wall amplification in up to 4 zones

*US and International patents pending
