

» DAVES™ 4.6

Digital Audio Video Entertainment System

Digital Audio Video Entertainment System

The **DAVES™4.6** system delivers a very high quality audio/video at an affordable price. This simple yet elegant system provides unequalled sound quality with cable runs up to 1000 feet per zone. It distributes audio signals to four listening areas using only a single category 5 cable. Further, each zone is capable of independently selecting any source. The system also features a source selection function, using an IR Remote Control or a keypad. By cascading additional **DAVES™4.6** the system can be expanded in increment of four zones per unit. Each category 5 cable run ends into an **DAVES-KP**(In Wall Amplifier), for amplification and control.

Feature & Benefits:

- Cable runs up to 1000 ft. per zone
- Expandable in 4 zone increments
- High quality audio/video
- High quality audio amplifier
- Affordable price
- Easy to operate
- Highly reliable
- Simple installation

Applications:

- Multiple room audio system in residential markets
- Audio and Video supplied to rooms on category 5 cables
- In-wall amplification in up to 4 zones

DAVES-Rx2 with and without audio outputs.

DAVES-Rx2 without audio to be used with DAVES-KP

DAVES-Rx2 with audio to be used as a stand-alone receiver

DAVES-KP

This small but powerful amplifier delivers true high fidelity performance that actually rivals the sound quality of large stand-alone amplifiers. The unit has a built-in IR detector for remote control of source selection, volume up, volume down, and mute. Available with IR-only control or IR with keypad.

*US and International patents pending
